Fall 2011
Project Overview

• **Problem:** Sparrow Hospital has thousands of devices (printers, copiers, fax machines) and it is difficult to know where all the devices are.

• **Solution:** Application that helps IT Staff locate devices and better service the hospital staff with finding alternate devices.

Selecting a Floor
What’s left to do?

• Have drag and drop of devices write location to the database
• Have placed devices load onto the maps
• Ability to filter which device types display on the map
• Enhance search functionalities
